### **ABOUT US :**

Arses Company has been established as a multi-purpose project to provide suitable grounds for exporting food products from Iran to other parts of the world. In the first phase of the company's opening, Dried fruit, saffron, nuts and various fruit concentrates are now offered. In the program, which is considered as the roadmap of this company, other products will be gradually introduced. and various fruit concentrates are now offered. In the program, which is considered as the roadmap of this company, other products will be gradually introduced.

The Company will benefit from the growing population, increasing disposable income, and trends of healthier diets in Canada – thereby establishing its operations and increasing market share.

By establishing long-term partnership agreements with food producers and suppliers from Iran, as well as with companies facilitating import and export activities, ARSES CO.,Ltd. will be able to provide clients with a stable supply of high-quality food products at competitive prices.

# Organizational Chart

## **Dried Fruit**

**Apple, Banana, Plum,  
Coconut, Kiwi and...**

ARSES.LTD dried fruits are produced with modern technology and from the best quality fruits. This product is an excellent and nutrient-rich snack that retains all its properties due to advanced drying methods and has a much longer shelf life than fresh fruit.

- 100 % Organic
- No added sugar
- Gluten free

## Fresh Dates and Date Chips

### Whole and Pitted

Dates are a complete source of energy and fiber and rich in nutrients and minerals. This product is one of the most popular products in regions such as the Middle East and cold countries. ARSES.LTD supplies this product in fresh, pitted forms and date chips in a great variety of packages.

- Naturally Sweet and Soft
- Deliciously Healthy
- Gluten Free

## **Raisins**

### **Whole and Seedless**

Raisins are produced by drying grapes, the final product of which will be different according to the type of grape and various quality levels. ARSES.LTD procures the highest quality raisins from the best production sources in Turkey, Iran and Tajikistan and provides them to traders and stores around the world.

- Fat Free
- Gluten Free
- Vegan & Vegetarian Friendly

## **Mixed Nuts**

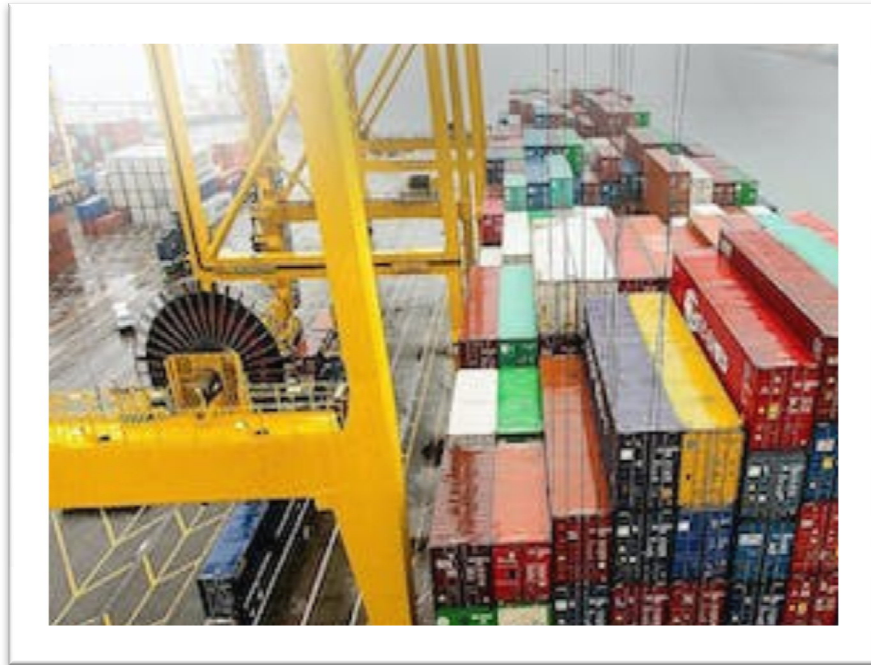

**luxury**

Mixed nuts are considered as one of the most popular and useful snacks due to the high energy and characteristic properties of pistachios, walnuts and almonds. Nuts can have different combinations depending on tastes, but they are always known as a great snack all over the world. At ARSES.LTD, we offer you different types of nuts with beautiful packaging.

- 100% Natural
- Premium Quality
- Great Packaging

## **World Food Suppliers**

A very important concern for food traders around the world is how to identify major food suppliers. The good news is that, due to the expansion of the global Internet network, major food suppliers in the world are mainly present in cyberspace, and therefore accessing them is not a difficult task. However, in this article, we have considered a classification that can offer you the most suitable option for food supply as a guide based on the type of food and your location.

suitable option for food supply as a guide based on the type of food and your location.

### **expert Consultation**

Our technical and business consultants will guide you in choosing the type and quantity of the product by being aware of the relevant standards for food products as well as the nobility of international laws and regulations regarding the clearance of goods. Our consultants, with their knowledge of different markets, can give you useful advice to make the best possible decision before investing.

- Advice on trade and customs
- Advice on identifying target markets
- Advice on a variety of standards related to food products
- Advice on estimating shipping and clearance costs

### **Shipping Samples**

Our company, after agreeing on the type and quality of the product with our esteemed customers, has provided the possibility of sending a sample of goods to ensure that the type and quality of the product conforms to the items mentioned in the agreement. After the product sample is sent to the customer, if the quality is finally confirmed, it will be possible to send more quantities of the same product.

### **packing**

Packaging is always one of the most important factors in food exports. We always try to package the products in accordance with the existing standards, as well as observing the principles of safety and aesthetics.

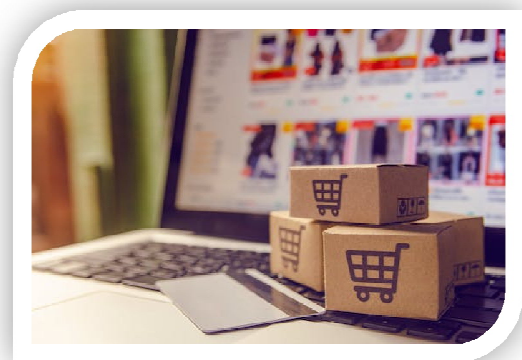

### **door to door shipment**

Once you have selected your desired product, we undertake to send your desired product through the factory door and deliver it to your desired location

- Perform customs formalities
- Preparation of transport documents
- Cargo insurance according to the type of request
- Cargo transportation with containers equipped with refrigerators
- Loading and clearance of goods

### **e-commerce**

Our company tries to facilitate processes such as price inquiry, order registration, export and product clearance by providing the necessary tools for e-commerce. Visitors to our site can register and follow up on their requests by submitting online forms or contacting WhatsApp.

### 24/7 Support

Due to the fact that our company is an international company, we consider ourselves obliged to answer the questions and requests of our valued customers 24 hours a day, 7 days a week.
